

# Never Enough

Jump5

So many times I wondered what is enough?  
It always happened with you  
We're always up and down  
We've been through so much  
I come out wanting you  
I've always been the one who had to let go  
When I can't take anymore  
But when it comes to you  
I'll never say no  
For all I've waited for  
And now I know for sure

Never Enough

Never enough

This kind of love

This kind of love  
I always wanted more and more  
No matter how much

No matter how much

Thinkin' of you when it comes to this kind of love  
It's never enough

All  
Always be looking for somebody like you  
Someone to open my eyes

All  
Now that I found you the searching is though

And still not satisfied  
When I look into your eyes

Never Enough

Never enough

This kind of love

This kind of love  
I always wanted more and more  
No matter how much

No matter how much

Brittany  
Thinkin' of you  
When it comes to this kind of love

It's never a minute  
A moment  
I swear that I won't let  
Time just slip away

Even if we're together  
Every second till forever  
It will never be enough

This kind of love  
Never Enough!

Never Enough

Never enough

This kind of love

This kind of love  
I always wanted more and more  
no matter how much

No matter how much

Thinkin' of you when it comes to this kind of love  
It's never enough

Never enough

This kind of love

This kind of love  
I always wanted more and more  
No matter how much

No matter how much

Thinkin' of you when it comes to this kind of love  
It's never enough

So many times I wondered what is enough  
It always happens with you
