

Still Got Me

Jump5

You still got me
Got me
Got me

From here looking back
I still can't believe
Where we've been
What we've did
What we saw
You and me
And now that we've come
To the end of our road
Can't believe 'round this bend
Our ride has to end
But you don't have to worry
Cause you know
What ever you see

You still got me
Through the good bad or many
You got me forever
You still got me
And where ever you go
Just know you'll never be there alone

So for me
When it hurts
And life leaves its mark
It helps me to know
That you're never that far
Just a call to a friend
And you're here to the end
Cause the memories wont fade
So you're with me always
So just know
Life can bring what it wants
You always got me

You still got me
Through the good bad or many
You got me forever
You still got me
And where ever you go

Ooh oooh
We could be near or far
Not passed the lonely star
So don't matter
No it don't
Across any sea
You're still with memories

You still got me
Through the good bad or many
You got me forever
You still got me
And where ever you go

Just know you'll never be there alone

You still got me
Through the good bad or many
You got me forever
You still got me
And where ever you go
Just know you'll never be there alone

Oh oh oh

And where ever you go
Just know you'll never be there alone

You still got me
Got me
Got me
