

# I Don't Need Society

Jungle Rot

Your numbers up you have to go  
The system says "I told you so"  
Stocked in a train like a truckload of cattle  
Sent off to slaughter in a useless battle  
Thousands of us sent off to die  
Never really knowing why  
Fuck the system they can have me  
I don't need society  
I don't need society

Before you know it you're in the corp  
Grab your gear boy you're off to war  
Stocked in a train like a truckload of cattle  
Sent off to slaughter in a useless battle  
Thousands of us sent off to die  
Never really knowing why  
Fuck the system they can have me  
I don't need society  
I don't need society

You were an apple pie clone living at home  
Never straying too far from your phone  
Now son make it through enemy lines  
You must hurry there's not much time  
Made it sir. They're gonna drop the bomb  
No time to evacuate, they'll call our moms  
Fuck the system, they can't have me  
I don't need society  
I don't need society
