

Nuclear Superiority

Jungle Rot

Sitting on a stockpile
All at my command
Ample leverage to destroy
Your god forsaken land
Strategic posturing to help deter
Aggression from our foes
Sophisticated lethality
Nuclear primacy grows

No peace and no one wins
Nations on bended knee
Bow down to my
Nuclear Superiority

Rogue states and terrorists
Provocateurs of war

Enemies of peace and hope
Globally deplored
Escalation dominance
Weapons are "locked and go"
Retaliatory strike confirmed
The f*cking final blow

No peace and no one wins
Nations on bended knee
Bow down to my
Nuclear Superiority

No peace and no one wins
The world on bended knee
Bow down to my
Nuclear Superiority
