

## Worst Case Scenario

Jungle Rot

Impact, earth cracked  
Megacities attacked  
Contrary to fact  
Our enemies react  
Counterattack  
Our movements have been tracked  
Exact, world sacked  
Under legislative act

Nuclear winter now  
Devastating consequence  
The worst case scenario  
Shade the earth from the sun

Globe seared, our sphere  
The face of evil reared  
Extinction, we're geared  
Our vows will be adhered  
Revered and feared  
Your god can't interfere  
Sterilized, world cleared  
Living things have disappeared

Nuclear winter now  
Devastating consequence  
The worst case scenario  
Shade the earth from the sun

Soot and smoke released  
Into the stratosphere  
Dust clouds block out the light  
Plunged into eternal night
