

## Circumstance

Junior Doctor

This pain  
Knocks me on my back again  
Although I'm more alarmed  
By when it doesn't phase me and  
This fights a battle I can't seem to win  
I board up doors to keep it out  
But then invite it in

And I try to deny having any fault in this  
And then being to blame  
My unfortunate circumstances  
I'm caught up in a lie that's completely blinded me  
And when I open my eyes  
I can't believe what I see  
Yeah

I say this is the last time  
Who do I think I'm kidding  
My will is broke and useless  
I need something to stop me  
Stop me  
Please

And I try to deny having any fault in this  
And then being to blame  
My unfortunate circumstances  
I'm caught up in a lie that's completely blinded me  
And when I open my eyes  
I can't believe what I see

I say this is the last time  
Who do I think I'm kidding  
My will is broke and useless  
I need something to stop me  
I say this is the last time  
Who do I think I'm kidding  
My will is broke and useless  
I need something to stop me  
Stop me

I say this is the last time  
Who do I think I'm kidding  
My will is broke and useless  
I need something to stop me  
Stop me
