

The More I See Her

Junior Kelly

the more i see you is the more i want you girl
somehow this feeling just grows and grows
the more i see you is the more i want you girl
don't wanna go back to what i knew before

With every sigh I just become more mad about you
More lost without you and so it goes

Can you imagine how much I love you
The more I see you - as years go by

the more i see you is the more i want you girl
somehow this feeling just grows and grows
the more i see you is the more i want you girl
don't wanna go back to what i knew before
