

# Boy Meets Girl

Junior Senior

Came into my life late one night,  
Left the next mornin' but you changed my life.  
You gave me a kick, don't make me sick.  
So I tried it with another but she didn't do the trick.  
Your busy makin' babies, and telling guys "maybe".  
So if your gunna be a mom let me be your baby.  
When you squeezed me real tight, you kept me up all  
night, I thought...  
Praise the lord I think I've seen the light.

B-B-Boys be ready here's trouble, G-G-Girls your  
trouble is doubled.  
G-G-Girls you're dreaming of babies, B-B-Boys your  
thinking of Ladies...  
But you hug me, squeeze me, love me, kiss me O baby,  
but just for one night.  
Cause you made my heart break, honest your mistake.  
I'm the best you'll ever have cant you see for goodness  
sake!  
New girl on the scene if you know what I mean,  
Oh my-my baby little love machine.  
You make my rolls rock, and make my rock roll,  
came for my body but left with my soul.

B-B-Boy meets girl, and they rock each other's world,  
B-B-Boys will be boys YEAH, and G-Girls will be girls,  
You know you know baby,  
You hug me, squeeze me, kiss me, love me  
Oh your baby but just one night. And that was alright,  
Keep going going on as the world is coming down,  
This town ain't big enough so you better leave town.
