

# Perfect Crime

Juno Reactor

I've waited the longest time  
To commit the perfect crime  
All I know is someday you will  
Kill and never understand  
What lies beneath in the heart of man  
As time slips into the ocean  
It won't come back with an act of devotion

I've paid the ultimate price  
Living in paradise  
All i feel is so surreal  
Kill me with your song  
All is love and that love is lost  
As time slips into the ocean  
It won't come back with an act of devotion

Orpheus play a song  
One we haven't heard in oh so long  
Shut the gates to hell and lock the door  
Throw away the key and say no more  
Mesmerise set the skies  
Kill me with your song  
All is love and that love is lost  
As time slips into the ocean  
I believe in love as the ultimate emotion
