

# Triple Tone Eyes

Just Jack

Things you told to me  
They play back in my head  
You showed me myself  
In the words you said  
And I could not believe you  
Your qualities unique  
And I was enchanted by the way  
You spoke to the strangers on the street  
In many ways you save me  
And keep my head above water  
You know your own mind so well  
And won't surrender any quarter  
Well if this is a dream  
I'll keep my eyes wide shut forever  
If this is a dream  
I hope I'm in a coma  
cos

You kill me  
And then you bring me back to life  
You cut me  
With the sweetest knife  
You kill me  
And then you tell me why  
My baby  
The girl with the triple tone eyes

I know you've been through it  
And that I do respect  
But if you can't let it go  
How can we connect  
I realise this is strange love  
But we should let it flow  
And you don't need to say anything  
Cos I already know  
Don't it feel right dear  
Now we're making eye contact  
And yes it feels right here  
I don't ever wanna go back  
Well if this is a dream  
I'll keep my eyes wide shut forever  
If this is a dream  
I hope I'm in a coma  
cos

Well if this is a dream  
I'll keep my eyes wide shut forever  
If this is a dream  
I hope I'm in a coma  
cos
