

Through The Night

Just Surrender

And I am the next best thing to all you have lost
And tonight
You're looking for your next regret
And I have never cared much about the cost
Much about the cost
And tonight
You're looking for a way to forget

And this roller coaster
I call life
It gets me up
Gets me high
Sometimes I still don't believe it
Sometimes I wonder why
Sometimes I wonder why I live this lie
It gets me through
It gets me through the night

I am the kiss on your neck that turns you on
And tonight
I'm here to make you sweat
I have never thought much of right or wrong
Much of right or wrong
And tonight
You'll take what you can get

And this roller coaster
I call life
It gets me up
Gets me high
Sometimes I still don't believe it
Sometimes I wonder why
Sometimes I wonder why I live this lie
It gets me through
It gets me through the night
Sometimes I wonder why
Sometimes I wonder why I lose my mind
It gets me through
It gets me through the night

Right now
I gave up my sanity
Right now
In exchange for my heart beating free
Right now
I sold off my dignity
I can't fight the feeling
I'm giving up everything
Right now
I'm losing my decency
Right now
I hope that I find clarity
Right now
If we hold on tight we can make it through the night

And this roller coaster
I call life

It gets me up
Gets me high
Sometimes I still don't believe it
Sometimes I wonder why
Sometimes I wonder why I live this lie
It gets me through
It gets me through the night
Sometimes I wonder why
Sometimes I wonder why I lose my mind
It gets me through
It gets me through the night
