

Forever

Justin Garner

Let's go
I can dance with you for ever
Let the music take you higher
She is just my type
Grooving all night

I'll be fine
We got to leave tonight
I'm not gonna be alone
I can make you say
Shorty I don't wanna be alone
Cause my eyes... how she shines
Her smile lights my soul inside

Let's go
I can dance with you for ever
Let the music take you higher
She is just my type
Grooving all night

Troll troll all on me
Bet that I can make you see
Stars tonight
... how you got me out of control
Cause my eyes... how you shines
Your smile lights my soul inside

You're just my type
Just what I like
Won't you be the girls in my life

Let's go
I can dance with you for ever
We can dance forever
Make love forever
Keep you forever
There ain't no other
That I can love forever

Let's go
I can dance with you for ever
Let the music take you higher
