

Kiss You Up

Justin Garner

rock, rock, rock, rock, rock, rock, rock
i've been on a hunt for you girl, girl
heard about the ... that you have for me
you don't want diamonds and pearls
just want the best for your man, that's me, yeah
you make me feel good, like i never had it so good
give you all that i could, baby
i've been a soul that i made you love in my pocket
like a flame burning out we ain't gotta rock it
like a chain in attached we ain't gotta lock it
how i feel without you
taking out, looking you in your eyes, let me stop
i'm a candy in your ear, can you feel me now
i'm getting deeper, deeper
deeper to your heart it's real
to the floor, to the floor, right now, now
and we on the floor, on the floor, right
drop it to the floor, to the floor, right now, now
and i'ma kiss you up,
hey girl, ... trying start out...
you the moon, you the sweetest thing on my
tip of my tongue is you
then i kiss you up, kiss you up, kiss you up right now
then i kiss you up, kiss you up, kiss you up right now
kiss you up
don't mind me, i'm in heaven
got my hands tied, please don't keep me waiting
oh it's on now, you've been wasting
time with them other lames you've been dating
call me the champion baby,
about to dominate you oh my lady
seen my love don't drive me crazy,
tell me are you down?
i've been a soul that i made you love in my pocket
like a flame burning out we ain't gotta rock it
like a chain in attached we ain't gotta lock it
girl it's how i feel
taking out, looking you in your eyes, let me stop
i'm a candy in your ear, can you feel me now
i'm getting deeper, deeper
deeper to your heart it's real
to the floor, to the floor, right now, now
and we on the floor, on the floor, right
drop it to the floor, to the floor, right now, now
and i'ma kiss you up,
hey girl, ... trying start out...
you the moon, you the sweetest thing on my
tip of my tongue is you
then i kiss you up, kiss you up, kiss you up right now
then i kiss you up, kiss you up, kiss you up right now
kiss you up
rock, rock, rock, rock, rock, rock, rock
rock, rock, rock, rock, rock, rock, rock
to the floor, to the floor, right now, now
and we on the floor, on the floor, right
drop it to the floor, to the floor, right now, now
and i'ma kiss you up,

hey girl, ... trying start out...
hey girl, ... trying start out...
you the moon, you the sweetest thing on my
tip of my tongue is you
then i kiss you up, kiss you up, kiss you up right now
then i kiss you up, kiss you up, kiss you up right now
kiss you up.
