

No Place in Mind

Justin Nozuka

Moonlight through my window in my bed I lay awake
My mind already made I'm out the door tomorrow
I'm gonna walk with no particular place in mind
Just a bag this time supposing a brush for my teeth

Oh, walk by the road and track
Oh, just a bag on my back

I hit the road no place in mind
No idea won't know just what I might find
Melodies and trees hang by my side
No one lives, all I need now
All the symmetry it makes me wonder
Could it carry me through dog days of summer

I thought of nothing as I walked down to the lake
The silence didn't break, I sat for hours there
I skipped a rock in there or I jumped in
Boy I loved to swim, yeah with luck get out

Oh, lie here 'til the sun goes down
Oh, all the stars that I found

I hit the road no place in mind
No idea won't know just what I might find
Melodies and trees hang by my side
No one lives, all I need now
All the symmetry it makes me wonder
Could it carry me through dog days of summer

I'm out here hey
Far away from the modern style
Peru, Lyon
I won't be home for quite a while

I hit the road no place in mind
No idea won't know just what I might find
Melodies and trees hang by my side
No one lives, all I need to right now
All the symmetry it makes me wonder
Could it carry me through dog days of summer

I hit the road no place in mind
No idea won't know just what I might find
Melodies and trees hang by my side
No one lives, all I need now
All the symmetry it makes me wonder
Could it carry me through dog days of summer
