

## Right By You

Justin Nozuka

Lay by the wind and show me  
The meaning of good love  
If I would believe I don't need  
True love

Oh... I will do right by you  
Oh... I will do right by you

Lay on the wind and lie my side with you  
And through and through  
Here on the path of love and meaning  
From where we come

Oh... I will do right by you  
Oh... I will do right by you  
Oh... I will do right by you  
Oh... I will do right by you

Oh no don't run away  
Another moment  
Oh no don't run away

Oh.... I will do right by you  
Oh.... I will do right by you

Oh dont run away  
Another moment
