

# Admire You

Kaiser Chiefs

You said that stranger things have happened  
I don't know why you're laughing  
I wish I'd never asked  
There must be something in the water  
That's making it feel stronger  
That's building to last

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I know it might be 'cause you're easy  
Or just because you're into me  
Or maybe 'cause you're new

There must be a combination of everything  
'cause I haven't seen a lot of things  
As interesting as you

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were

I thought that when you said you need me  
You meant that you needed me  
But you just knee'd me in the head

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were
