Admire You

Kaiser Chiefs

You said that stranger things have happened I don't know why you're laughing I wish I'd never asked There must be something in the water That's making it feel stronger That's building to last

Do you admire me like I admire you? Do you admire me like I admire you?

And I know it might be 'cause you're easy Or just because you're into me Or maybe 'cause you're new

There must be a combination of everything 'cause I haven't seen a lot of things As interesting as you

Do you admire me like I admire you? Do you admire me like I admire you?

And I thought you were a nervous wreck And it turned out that you were I heard you were a bag of nerves And it turned out that you were Turned out that you were Turned out that you were

I thought that when you said you need me You meant that you needed me But you just knee'd me in the head

Do you admire me like I admire you? Do you admire me like I admire you?

And I thought you were a nervous wreck And it turned out that you were I heard you were a bag of nerves And it turned out that you were Turned out that you were Turned out that you were

Do you admire me like I admire you? Do you admire me like I admire you?

And I thought you were a nervous wreck And it turned out that you were I heard you were a bag of nerves And it turned out that you were Turned out that you were Turned out that you were
