

Listen to Your Head

Kaiser Chiefs

There's a milion combinations and this is one.
There's a milion combinations and I am one.
There's a milion ways to win or lose.
There's a milion ways to cheat.
There's a milion ways to show yourself.

There's a milion constellations and this is one.
There's a milion destinations and this is one.
There's a milion ways to show your hand.
There's a milion ways to lose.
There's a milion ways to prove yourself.

R: If you wanna stay alive,
then you got to play dead.
Don't listen to your hearth,
just listen to your head.

If you wanna stay alive,
then you got to play dead.
Don't listen to your hearth,
just listen to your head.

There are endless wrong directions along the way.
And endless converstations we did not say.
I don't think that it's haven and I don't think that it's hell
.
We're all half way to nowhere.

R:

And if you want to go back.
Well, you can never go back.
And if you wanna stay alive,
just listen to your head.

R:

And if you want to go back.
Well, you can never go back.
And if you wanna stay alive,
just listen to your head.
