

# The Angry Mob

Kaiser Chiefs

I can prove anything  
I'll make you admit again and again  
I can prove anything  
The way that it's read again and again

And its only cos you came here with your brothers too  
If you came here on your own you'd be dead  
Its only cos you follow what the others do  
Its no excuse to say your easily lead

You can choose anything  
You choose to lose again and again  
You could do anything  
Why should you do anything again

And its only cos you came here with your brothers too  
If you came here on your own you'd be dead  
Winding yourself up until your turning blue  
Repeating everything that you've read

And here we go with the letter  
Well can you fix it for me  
Cos we need entertainment  
To keep us all off the streets

So tonight you'll sleep softly in your bed

You can try anything  
And no-one would know apart from you and me  
You can stop anything  
It's starts with just one and turns to two then three

Its only cos you came here with your brothers too  
If you came here on your own you'd be dead  
Raise a glass or two  
You raise a fist or two  
Get a shopping basket wrapped round your head

So here we go with the letter  
Oh can you fix it for me  
24 hour drinking  
To keep us all off the streets

So tonight you'll sleep softly in your bed

We are the angry mob  
We read the papers everyday day  
We like who like  
We hate who we hate  
But we're also easily swayed
