

# Fear Of Falling

Kajagoogoo

Bitter the kiss on the edge of my lips  
Is the fear of falling  
Take a chance and prepare to advance  
On the fear of falling  
Tremble inside, prepare to collide  
With the fear of falling

Heads you win, it's in the stars  
Light you light, show your cards  
Instrument, do what you do  
Who're you gonna turn to?

Fear of falling down, hey I'm falling  
Fear of falling down, hey we're falling

Win or lose, odds that you choose  
On the fear of falling  
Prophecy touch me tenderly  
On the fear of falling

Face to face, day to day  
I look to you, you look away  
I know you know and I know too  
Who you're gonna turn to?

Fear of falling down, hey I'm falling  
Fear of falling down, hey we're falling
