

Sit Down & Shut Up

Kajagoogoo

All my loving all at once
I gave it all to you
Jealous woman pull your punch
Break my heart in two

Sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me I'm talking too

You know how to hurt me badly
You know how to hit me, hurt me, push me, punch me
You know how to hurt me baby
You know how to hit me, hurt me, push me, punch me

Don't push your luck now lady
Don't push your luck too far
Your tongue is vicious maybe
But my blow is burning fire

Treasures all emotional
Were buried in my soul
You took your spade and dug them out
And left me with the hole

So sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me I'm talking too

You know how to hurt me badly
You know how to hit me, hurt me, push me, punch me
You know how to hurt me baby
You know how to hit me, hurt me, push me, punch me

Don't push your luck now lady
Don't push your luck too far
Your tongue is vicious maybe
But my blow is burning fire

So sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me I'm talking to you
I said, sit down

Sit right down and shut your mouth

Sit down (shut up! shut up! shut up! shut up!)
