

The Last Day

Kajagoogoo

Intro

Last day, stay with me
lay with me till the last day

Verse

I know of secrets you are keeping
your heart is never as it seems
I lay and watch you while you're sleeping
and walk unbridled in your dreams

Don't wake up, just keep dreaming

Chorus

Stay with me lay till the last day of your life
live every day till the last day of your life
how will you feel on the last day of your life
love every day till the last day of your life

Verse

Ever present at your waking
perceive the day I touch your hair
in every single undertaking
I am with you standing there

So don't look back, just keep breathing

Chorus

Live every day like the last day of your life
love every day till the last day of your life
how will you feel on the last day of your life
Stay with me lay till the last day of your life

Stay with me till the last day
lay with me till the last day
stay with me till the last day
lay with me till the last day

Chorus

Live every day like the last day of your life
love every day till the last day of your life
how will you feel on the last day of your life
Stay with me lay till the last day of your life
