

# Escape From The Jail

Kaledon

Inside the jail  
I was alone  
During this year  
Fighting the void

Now is the moment  
To escape away  
And to return  
In my kingdom come

Escape from the jail, escape from this captivity  
The force of the Dragon opens wide the gates

Out of the jail  
The darkness falls  
the way we'll find  
To come back home

The wood around  
Is scaring us  
Running away  
crossing the fog

The way is long  
lost in the fog  
but with my will  
we will start again

Now I am a freeman  
and shine returns  
through the high mountains  
as far as my sons...
