

The Party

Kaledon

During the Parth in the palace
I'm waiting for a gife from my blacksmith
He made a new sword for me
And I am very anxious to see how he's worked

This is a great day
But it will be the last
For a long time

Beer, hydromel and wine you can drink in the hall all night long
For his beloved people he wants the best because, he's enlightened
All hail to the glorious king

Finally Altor is here in my hall
With an object under a cloth
I'm very amazed because
My new sword is here and now it's mine

Beer, hydromel and wine you can drink in the hall all night long
For his beloved people he wants the best because, he's enlightened
All hail to the glorious king
