

# Prodigal Son

Kamelot

Essence of beauty  
Taken to soon  
Princess of hope  
Deep in our hearts you live on

Essence of goodness  
Goddess of light  
Give us the power  
God gave us strength to live on

Essence of beauty  
Taken too soon  
Princess of hope  
Deep in our hearts you live on

Essence of goodness  
Goddess of light  
Give us the power  
God gave us strength  
Give us the strength to live on

(How could this happen  
What have we done)

How could this happen?  
Oh, what have we done?  
Will our tears ever pay for our sin?  
Mother forgive us  
We need all your love  
To fight and to carry the burden of shame

Hereby we swear that for as long as we live  
We will not soil our name  
The truth made of iron  
Will see it with pain until death  
Our secret remains  
Until death our love remains  
And in death our love re-framed

I need a way  
But worlds unwind  
Lovers in blood  
Now divided in heart

My grief and sorrow always trying  
To repay  
Behind the palisade  
This is destined life  
Music and the tears I hear you say  
Through the walls  
Turns to nightmares and there's no escape at all

Oh joyful childhood  
You died so young

Every child follows blind  
On the journey we call life

Learn it every day  
Given love or given name  
Determines everybody's fate in life  
Be careful what you give

Stranger to love and affection  
On the run  
In search of shelter in the solitude of sin  
A drifter in the dark  
A soldier of the pain  
A constant slave under the belt of misery

Oh joyful childhood  
You died to young

Every child follows blind  
On the journey we call life  
Learn it every day  
Given love or given name  
Determines everybody's fate in life  
Be careful what you give
