

Come Together

Kane

I've got a thing for you
I've got a thing for you when I don't really mind
I know a thing to do
I know a thing to do cause we're two of a kind
Don't say no
Cause you don't understand
Don't let go while it's still in your hands

I've got a thing for you
I've got a thing for you, when it's under my skin
Don't say no
Say that this isn't real
Don't let go cause you don't really feel

Come Together
Come together , oohhh
More then ever
More then ever

I've got a thing for you
I've got a thing for you
We don't have to know why
All the things we do
Yeah all the things we do if you give it a try
This ain't over, no it's even began
One step closer now we gonna move on

Come Together
Come together , oohhh
More then ever
More then ever

Don't say no
Cause you don't understand
Don't let go while it's still in your hands
I've got a thing for you
I've got a thing for you

Come Together
Come together , oohhh
More then ever
More then ever

Come Together
Come together , oohhh
More then ever
More then ever

Don't say no
Cause you don't understand
Don't let go while it's still in your hands
Don't say no
We have nothing to fear
Don't let go
The future is already here
