

I Will Keep My Head Down

Kane

Come down, closer
I know this is everlasting
Somehow closer along the way
So much, now this
And I feel worse than I have ever felt
And I know you say
You'll find a way

And I will pray for you
I will keep my head down
And I will keep my head down and I'll follow
Keep my head down and I'll follow
Keep my head down
I will keep my head down for you
Keep my head down

My will is empty
I'm counting ev'ry minute, ev'ry hour, ev'ry day
And I see you slowly fade along the way, come on
Come down closer
I know this is everlasting
I know you say you'll find a way
I will stay but you, oh

I will keep my head down for you
And I will keep my head down and I'll follow
Keep my head down and I'll follow
Keep my head down
And I will keep my head down for you
I will keep my head down for you

And though I'm spinning and I can't sleep
These thoughts around me
When all I've given you means nothing, nothing
And though I'm spinning and I can't sleep
I cannot bring you back

So stream on through me
I know this is everlasting
Words mean so much along the way

And I will keep my head down and I'll follow
Keep my head down and I'll follow
Keep my head down
I will keep my head down for you
I will keep my head down for you
I, I will keep my head down for you

I, I said I will keep my head down
Yeah, yeah, yeah, yeah, yeah, yeah
I will, I will, I will, I will, yeah
Keep my head down for you
