

It's London Calling

Kane

I knew it was you
I knew it was always you
So when you ask me to promise you
There's not a thing that I wouldn't do for you

I knew through & through (now)
I knew I would follow you
And where it leads me I'll run with you
There's not a thing that I wouldn't do for you
Hey

It's London calling
Lifts me up of the ground
It's London calling out
Things have come around

I knew it was always you
Ever since I layed eyes on you
I had that feeling that wouldn't go away

I knew through & through (now)
I wanted to be with you
You shouldn't listen to what they say
Some things stay
Oh, hear what I say
Some things stay for good

It's London calling
Lifts me up of the ground
It's London calling out
Things have come around

It's London calling
Lifts me up of the ground
It's London calling out
Things have come around

Things have come around
