

## Fair Exchange

Kansas

Your credit is good if you're a member  
Just a token to help the people remember  
All we've done for you, nobody buys and nobody sells  
Nobody speaks 'til the chairman tells you  
We're gonna be your religion, throw those others away

Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife  
No one can refuse our offer, it's a fair exchange

You're on file, our computer, knows what's best for you  
We will provide the solution, for the rest of you  
Safety and peace, the terror will cease  
Forget everything the fanatics tell you  
Now you can worship the leader, all he wants, is your soul

Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife  
No one can refuse our offer, it's a fair exchange

We're under control, never worry, always watching you  
Now you're a part of the program, we'll be using you  
What do you want? We know what you need  
Get out of line, we eliminate you  
All for the good of the people, better one man should die

Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife  
No one can refuse our offer, it's a fair exchange
