

## Need

Kansas

I lost you a long time ago I tossed our love as far as I could  
throw

I can't help feelin tentative and blind  
I only wish that you could read my mind  
I need to pitch it all into the wind  
I need to face a wall that's cavin' in  
I need to fall fall again I do need you

Can friends be lovers can lovers still be friends  
What about the story when there ain't no happy end  
Look around look around and tell me  
what am I s'posed to do  
To say goodbye'd be a big mistake after  
all that we've been through

Some familiar face some familiar song  
But those times have come and gone  
Sometimes I feel like my memories are  
only there to let me know  
That bein' lonely is so damn slow  
It's like a deep dark fever dream

I get surges I take a midnight drive  
I'm goin' nowhere I don't care when I arrive  
I got questions the kind that got no clues  
I think I find the answer on the road that leads to you
