

It Takes A Worried Man

Karel Gott

It takes a worried man
to sing a worried song.
It takes a worried man
to sing a worried song

it takes a worried man,
to sing a worried song
let tell you that it takes a worried man
to sing a worried song

I'm worried now I'm worried now
I'm worried now I'm worried now now baby
I'm worried now
but I won't be worrried long

Well I went across to river to laid me down to sleep
let tell you when I went across to river to laid me down to sleep
When I woke up when I woke up
When I woke up when I woke up oh, baby
When I woke up when I woke up
and there were shackles 'round my feet

Let me tell you something baby...

Well it takes a worried man
to sing a worried song.
It takes a worried man
to sing a worried song

let tell you that it takes a worried man
to sing a worried song
I'm worried now
but I won't be worrried long

let tell you that it takes a worried man
to sing a worried song
c'mon c'mon c'mon...
