

# All Because Of You

Karen Carpenter

Every night I get tired eyes  
My feet don't reach the ground  
Then I'm with you  
I get by 'cause I know that you're near me

So baby close your eyes  
I can sleep tonight  
All because of you  
Every night when the fire flies

The walls come tumblin' down  
At the Bijou  
I get by 'cause I know that you're near me  
So baby close your eyes

I can sleep tonight  
All because of you  
I'll keep singin' my love song  
In my mind I'll sing a song for you

You can see through the music  
That's in my mind  
So baby close your eyes  
I can sleep tonight

All because of you  
All because of you  
All because of you
