Leopard's Tongue

One touch and you had enough Two touch and you lust for more With the hair I wear on my face Like a leopard's tongue in the mouth of a snake

Our love, it can't be beat The animal inside me's free

Used up, used up, I'm used up Now I'm gone, gone Used up, used up, I'm used up Now I'm gone, gone

One touch and you ask for more Two touch and you're on the floor Just a lick of sweat off your skin Like an aftershock from the prick of a pin

Our love, it can't be beat The animal inside me's free

Used up, used up, I'm used up Now I'm gone, gone Used up, used up, I'm used up Now I'm gone, gone

All that's left is my flesh and bone, nothing I own No one to tell when you take me with you

Used up, used up, I'm used up Now I'm gone, gone Used up, used up, I'm used up Now I'm gone, gone
