## **Any Better Than This**

Kari Kimmel

Come on out, come on [?] long we been waiting Break it down, break it down Let's get it on, no escaping

Gonna light, gonna light Light it up tonight, yeah Take me higher, take me faster Cause I'm feeling alright, oh oh oh

Never gonna get any better than this Got a fire, blow it up, blow it tonight Never slow it down, cause I don't wanna miss All the passion that ignite To don't get better than this

Every single breath you take You take my breath away, oh And when you move like that You make me so hard to behave

Gonna light, gonna light Light it up tonight, oh Fireworks are going off Yeah it's feeling so right

Never gonna get any better than this Got a fire, blow it up, blow it, tonight Never slow it down, cause I don't wanna miss All the passion that ignite To don't get better than this

Don't get, don't get Oh oh oh, yeah yeah yeah yeah Don't get, don't get Oooh

Never gonna get any better than this Got a fire, blow it up, blow it tonight Never slow it down, cause I don't wanna miss All the passion that ignite To don't get better than this

Never gonna get any better than this Got a fire, blow it up, don't get better than this Never slow it down, cause I don't wanna miss, yeah All the passion that ignite To don't get better than this

Never gonna get any better than this Ooh, don't get better than this Never slow it down, cause I don't wanna miss, yeah, yeah Don't get better than this
