

Christmas Will Come Alive

Kari Kimmel

I hear that reindeer really fly
I hear that santa claus is coming by tonight
I hear that elves are makin toys
But you'll only get one if you've been a real good boy
Oh you say it can't be true
But give me one chance
And I'll prove it to you

Come with me tonight
We'll listen for sleigh bells and sit by the fire
You'll feel like a child
And the spirit of christmas will come alive

We'll wait for carolers to sing
Then we'll make some cookies and we'll leave them by the tree
We'll make a snowman right outside
And with some magic he will start to come alive
Oh you say it can't be real
But open your heart
And I'll make you believe it

Come with me tonight
We'll listen for sleigh bells and sit by the fire
You'll feel like a child
And the spirit of christmas will come alive

There's one more thing that you should know
I'll tell you here right underneath the mistletoe
