

Christmastime

Kari Kimmel

Don't see snow, it's 85 degrees out
Not many presents underneath the tree but it's all right
Cause I got you tonight

I don't hear carolers I don't hear singing
But we got bells and we can keep on ringing em all night long
And we can sing their songs

And if I spend it with you
My world Is so much brighter
It's always much brighter
When I spend it with you
My world is more magical
It can't get much better
Christmastime is more beautiful with you

Don't have a fireplace don't have a chimney
Not sure how santa's gonna find his way in
But that's all right
Cause I got you tonight

Don't have turkey don't have pumpkin pie no
But baby I got you and we got wine
So I got a feeling
It's gonna be a good night

And if I spend it with you
My world Is so much brighter
It's always much brighter
When I spend it with you
My world is more magical
It can't get much better
Christmastime is more beautiful with you

Lalalala...

I wish that somehow I could show you better
Give you something that you'd never forget
But it's all right
Cause we got more than most people have in their whole life

If I spend it with you
My world Is so much brighter
It's always much brighter
When I spend it with you
My world is more magical
It can't get much better
Christmastime is more beautiful with you

My world Is so much brighter
It's always much brighter
When I spend it with you
My world is more magical
It can't get much better
Christmastime is more beautiful
Christmastime is more beautiful
Christmastime is more beautiful with you
