

Don't Give Up

Kari Kimmel

Don't see that [?] anymore
You want to fade away
Stop pretending that love

Could change the world someday

So you say that you're like everybody else
And just wait

You move the earth with just one touch
Even if all that you gave 'em is love
You [?] this to yourself
To not give up, hey hey hey
No, you don't give up
Say-ay-ay that you won't give up

You feel you're going in circles
Don't get anywhere
You turn around just to see
You're already been there

There's a point in tryin'
But you got to believe too

You move the earth with just one touch
Even if all that you gave 'em is love
And you [?] this to yourself
To not give up, hey hey hey
No, you don't give up
Say-ay-ay that you won't give up

You can say that you want
To make the world a better place
You can pray for someone else to start

Just sit by, take the fire
That you want and let it burn
You can shut your eyes and walk away

But you move the earth with just one touch
Even if all that you gave 'em is love
You [?] this to yourself
To not give up, hey hey hey
No, you don't give up
Say-ay-ay that you move the earth with just one touch
Even if all that you gave 'em is love
And you [?] to yourself to not give up
Hey-ey-ey
No, you won't, no, won't give up
La la la la, la la
Yeah yeah
