

## Just the Way I Like

Kari Kimmel

I know what I want I ain't gonna lie  
Almost there I'll be ready in time

You're givin me that look, look, look in your eye  
And I can't walk away  
I'm captiva-va-vated by you  
And that won't ever change

It's just the way I like  
It's just the way I like  
Yeah

Break me off a piece oh I wanna try  
Every flavor you got I want a bite  
You know you're drive, drive, drivin' me mad  
And I can't walk away  
Yeah you're my soul mate baby  
I'm yours and I won't ever change

It's just the way I like  
It's just the way I like

You keep me goin' round  
You keep me goin' round  
You keep me goin' round  
Round round round, round round round  
You keep me goin' round  
You keep me goin' round  
You keep me goin' round

It's just the way I like  
It's just the way I like  
You musta read my mind  
You musta read my mind
