

# Meant to Be

Kari Kimmel

Daddadadadada...

Where do we go from here  
So unexpected but so right  
It kinda snuck up on me  
Yeah it took me by surprise

The whole entire world  
Could come crashing down tonight  
But I got you and that is  
All I need I need it's all I need  
As long I got you... I'm all right

Cause we're meant to be  
Yeah it feels so right  
Every thing's so perfect  
Couldn't get much better  
Didn't think I'd feel  
What I feel tonight  
It couldn't be more perfect  
Cause we're meant to be together, together, together  
Meant to be together, together oh oh

So many rules to break  
So many paths that we could choose  
But only one direction  
Led me here to you

Fortresses were made  
But we broke down every wall  
Changed the course of time  
And now our love continues on and on and on  
You're all I need, yeah you're all I need

Chorus

Bridge:  
Nothing could ever change  
The love we feel it's fate  
Destiny we're meant, kismet  
Every thing's for love  
We do it all because  
We're meant to be this way

Daddadadadada...

Cause we're meant to be  
Yeah it feels so right  
Every thing's so perfect  
Couldn't get much better  
Didn't think I'd feel  
What I feel tonight  
It couldn't be more perfect  
Cause we're meant to be

Cause we're meant to be  
Yeah it feels so right

Every thing's so perfect  
Couldn't get much better  
Didn't think I'd feel  
What I feel tonight  
It couldn't be more perfect  
Cause we're meant to be together, together, together  
Meant to be together, together oh oh  
We're doing all for love  
Together, together, together  
Meant to be together, together oh oh  
We're doing all for love  
  
We're doing all for love
