

# Poison

Kari Kimmel

Your poison  
Everything you touch is poison  
Every word out of your lips, poison  
You played me  
You played me like a fool now you blame me  
For all that I've become from your poison

I couldn't have given you anymore of my life  
You say you were loving me with every single lie

You left me so heartless there was nothing left of me but pieces, only pieces  
You broke me down, there was nothing left of me but pieces, only pieces  
No, there's nothing left, nothing left  
There's nothing here left of me but poison  
Poison

You tricked me  
To save yourself, you thought you were winning  
But you're not getting off that easy

There's nothing more that I could give in this life  
You say you were protecting me with every single lie

You left me so heartless there was nothing left of me but pieces, only pieces  
You broke me down, there was nothing left of me but pieces, only pieces  
No, there's nothing left, nothing left  
There's nothing here left of me but poison  
Poison

There's nothing you can say, nothing you can do  
Damage is already done  
There's nothing you can say, nothing you can do  
Damage is already done

Your poison, oh  
Your poison, oh  
Poison  
Poison

You left me so heartless there was nothing left of me but pieces, only pieces  
You broke me down, there was nothing left of me but pieces, only pieces  
No, there's nothing left, there's nothing left of me but pieces, only pieces  
Yeah, you broke me down, there was nothing left of me but pieces, only pieces  
No, there's nothing left, nothing left

There's nothing here left of me but poison
