

Remember

Kari Kimmel

Come closer
Breathe deeper
Just take it in

Make love to
Each other
Over and over again

If it's all I can take
I'll remember it all,
remember it all
If it's all I can take
I'll remember it all,
remember it all

One moment imprinted
Inside my mind
Could there be
more to this love
or will it be left behind?

'Cause if it's all I can take
I'll remember it all,
remember it all
If it's all I can take
I'll remember it all,
remember it all

[break]

If it's all I can take
I'll remember it all,
remember it all
If it's all I can take
I'll remember it all,
remember it all
remember it all
