

So In Love

Kari Kimmel

Forbidden love I don't care,
I don't care what anybody
thinks as long as you
are here with me,
here with me.

Where do we go from
here I don't know
you're the only what I want
the only one, we're so
meant to be.

I'm ready to jump, I'm never going under
I need you I can't wait any longer ooh oh
I'm so oh in love.

Incapable of failing, I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in

La la la la love.
La la la la love.
La la la la love.

Destiny has brought us here
oh I can't believe
how much I feel
seems like a dream.

It must be fate,
something bigger than us that
brought me here, it's obvious
we're so meant to be.

I'm ready to jump, I'm never going under
I need you I can't wait any longer ooh oh
I'm so oh in love.

Incapable of failing, I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in

La la la la love.
La la la la love.
La la la la love.

We've changed the course of time
oh, everything's so bright it's perfect, kiss me.

Everything for love we do it all
because we're meant to be

La la la love.
La la la love.
La la la love.

I'm ready to jump, I'm never going under

I need you I can't wait any longer ooh oh
I'm so oh in love.

Incapable of failing, I know that we will last,
taking every risk come taking every chance
ooh oh I'm so oh in

La la la la love.
La la la la love.
La la la la love.

We're meant to be together

la la la la love.
I'm so oh in love.
