

Take This Love

Karin Park

If I asked you to let me join the game
Would you let me through or make a secret of my name
If I am a joke, promise me to laugh about it all

Take the love I give to you and turn this world around
cause after all we're here to make the sound
of everybody dancing to this little heart of mine
I bet you here me when I say
I know you hear me when I say
We only have today

You tell me that I won and then you fall asleep
I pull out my gun and you begin to weep
When was the last time you saw a crocodile smile?

Take the love I give to you and turn this world around
cause after all we're here to make the sound of everybody danci
ng to this little heart of mine
I bet you here me when I say
I know you hear me when I say
We only have today
