

Love Is

Karina

It's like a window to my soul
The greatest story ever told
The missing piece that'll make me whole
How sun illuminates the cold

Feels like ya flying feet on the ground
The pain is dying cause you're around
Like nothing I came before was real
Well baby that's how you make me feel

And I'll tell the world that I'm your girl
And nothing can ever come between us, no
Being with you makes me feel good
Could this be everything I've dreamed of

That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)

The flash of light in the darkest night
The feeling that everything's alright
A mystery that no one can solve
A helping hand to get through it all

It's like a dream you don't wanna end
Like throwing caution to the wind
Until we end, I will love you still
Cause baby that's how you make me feel

And I'll tell the world that I'm your girl
And nothing can ever come between us, no
Being with you makes me feel good
Could this be everything I've dreamed of

That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)

Searched my whole life trying to find
Someone to bare witness to this thing they call life
I'm finally ready
You've introduced me to love

That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)
That's what love is (love), That's what love is (love)

That's what love is (love), I know you felt this
That's what love is (love), I know you felt this
That's what love is (love), I get this feeling every time you come around
That's what love is (love),
That's what love is (love), I know you felt this
That's what love is (love), I know you felt this
That's what love is (love), Feels like I'm flying with my feet on the ground

That's what love is (love),

Oh Oh Oh Oh Oh Oh Oh

Oh Oh Oh Oh Oh Oh Oh

Feels like I'm flying with my feet on the ground

Oh Oh Oh Oh Oh Oh Oh

Oh Oh Oh Oh Oh Oh Oh

Feels like, feels like I'm flying with my feet on the ground
