

# Everything To Me

Karl Wolf

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

Love it suppose to feel this way  
Dragging you down like quick sand  
Love ain't suppose to make you cry  
Love ain't suppose to make you cry  
But she like the devil in disguise  
Don't get close to your brown eyes  
Close and I look down as you go bright  
But every day you put me throw  
I can't believe I'm standing right

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
You make me feel like an alien  
Cuz you are everything to me  
Cuz you are everything to me

What's up with all your merry friends  
Try to work us out like '  
I don't believe in fairytales  
Cuz everything is back and worst to me  
But sure is flance on the glato  
Instead I feel just a whole  
And just turn it to say  
Cuz everything you put me throw  
I can't believe I feel like

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

It's all an experience but the tragedy fell on me  
I got all that dance  
And the poison always seems to finds me  
Drop that corgeus lover  
You're a danger as best time as survival  
I can't believe that I've been searching for this treasure  
Ooh my love

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me

Cuz you are everything to me

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me

I'm out and we'll take some to brew it  
Jump above the street, I got nothing to leave now babe  
Cuz you are everything to me  
Cuz you are everything to me
