

Gone With The Wind

Karl Wolf

Don't you miss, miss that and the other?
This I told you you are my boo, you are my only lover
But you ditch this (ditch this)
Tell when you gonna fix this
Babe you're my star, but when you run away
It's so hard, hard, ha-a-aa-aaard
It's so hard, haa-a-a-aard

She's gone with the wind
She's gone with the wind
'Cuz we were so close now are very far
She's gone with the wind
She's gone with the wind
And I miss her, and I miss her
There was a time we were just lovers
There was a time we were just friends
But now she's gone with the wind
She's gone with the wind
And I miss her, and I miss her

And I miss her (aah-ah), and I miss her (aah-ah)
And I miss her, miss her, miss her (aah-ah)

'Cuz I found out that you're cheating
I found out from my friend
We both know there's nobody that can touch you like I can
'Cuz this girl is just a freak
This girl is just a freak, this girl is just a freak
Come on (oh oh oh), girl, come back with me
I messaged you, you ignored me, I wake up screaming
This face that I'm used to has disappeared

She's gone with the wind
She's gone with the wind
'Cuz we were so close now are very far
She's gone with the wind
She's gone with the wind
And I miss her, and I miss her
There was a time we were just lovers
There was a time we were just friends
But now she's gone with the wind
She's gone with the wind
And I miss her, and I miss her

And I miss her (aah-ah), and I miss her (aah-ah)
And I miss her, miss her, miss her (aah-ah)

And I miss her (aah-ah), and I miss her (aah-ah)
And I miss her, miss her, miss her (aah-ah)

And I miss her (aah-ah), and I miss her (aah-ah)
And I miss her, miss her, miss her
