

# Inside Out

Karmin

Started out pretending  
With my good intentions on the line  
When did I get locked in  
When did I get stuck here wasting time  
Try convincing yourself but you're not sure  
If you're using your brain it's the hearts turn

Can't you see, I'm just starting  
To live life inside out  
Can't you see, I was faking  
But now I'm all about  
Inside out, inside out  
No more outside looking in  
Can't you see I'm just trying

Working through the weekend  
Make a living that won't let me live  
Say I got some time left  
But they tell me time does not forgive  
I was playing with fire so I got burned  
But I've been using my brain it's the hearts turn

Oh -- I guess this life ain't for me  
Oh -- I'm just the missing puzzle piece  
Oh -- my inside's screaming out, to be free to be free
