

## As I Slither

Kataklysm

I can't believe it came to this, I live my life with no regrets  
Stripped down, from all my dignity, you took it all from me  
I rise. Every single time you lie  
To me...I'll play that game of hate

As I slither. I slither down your spine. Slither!  
I slither down your spine. Slither!  
I slither down your spine. Slither!  
I'll take all away...I'll take your life away  
I'll take it all away

I can't believe it come to this, I live my life with no regrets  
Stripped down, from all my dignity, you took it all from me  
I rise. Every single time you lie  
To me...I play that game of hate

As I slither. I slither down your spine. Slither!  
I slither down your spine. Slither!  
I slither down your spine. Slither!  
I'll take all away...I'll take your mind away...

Don't try to comprehend me  
Don't try to criticize me  
Watch me as I slither. As I slither.  
Around your neck
