

## Dead & Buried

Kataklysm

Visions of chaos inhabit our lives, no truth in a world of lies  
The parallels of sanity, border the insane

Time is endless, pain is faithless  
A mirror of broken dreams our souls remembered

Life, death, we're dead and buried  
When all is gone our souls will turn to dust

Six feet below, you'll find salvation forever  
Time is endless, pain is faithless  
A mirror of broken dreams our souls remembered

Life, death, we're dead and buried  
When all is gone our souls will turn to dust  
Life, death, we're dead and buried  
When all is gone we fade into the sun

Dead and buried

Hold on to nothing, fall in disgrace  
There's no one here, to cradle your fate  
We are nothing, but shadows and dust, save me...

Life, death, we're dead and buried  
When all is gone our souls will turn to dust  
Life, death, we're dead and buried  
When all is gone we fade into the sun
