

## Numb & Intoxicated

Kataklysm

Everyday is a struggle to live  
Find peace at the end of a bottle  
Wash away all my anger and sorrow  
Don't even care if i see tomorrow  
Numb & Intoxicated  
Too hard to breathe, too hard to feel  
Bring me, courage in a glass  
Numb & Intoxicated  
Kiss the devil's hand, God is dead  
This is war inside my head  
The more you push.. the harder I get  
The more you hate.. the stronger I get  
The more you scream.. the louder I get  
My skin is thicker than death  
It's never late to kill a mind  
It's always easier to numb a soul  
Desperation leads imagination  
Incarceration  
Numb & Intoxicated  
Kiss the devil's hand, God is dead  
Its like a war inside my head  
Your push me over the edge ... Intoxication
